## Special Certifications

For active special certifications relevant to one of the above trips (outside of Wilderness First Aid or Responder), you may receive an additional bonus when guiding that trip. Examples of special certifications include Wilderness Emergency Medical Technician, AIARE Avalanche Training, and AMGA Alpine Guide Certification.

New guides would receive +15% on the standard daily rate for your certification. If you are a returning guide, you would receive +20% on the standard daily rate. Bonus rates need to be pre-approved by staff, so please reach out to us about your certifications! Please note that special rates and pricing may not apply on certain partner trips - e.g. Climb for Hope.
